

**Holdfast Beach School RISK BENEFIT ASSESSMENT:
COVID-19 Specific Risk Assessment (Tier 3 restrictions)**

**Compiled by: Rachel Stevens
Amended: 27th November 2020**

Being outdoors in nature reduces stress, keeps immunity strong, builds resilience and a sense of community and keeps us physically healthy. Regular attendance at outdoor learning groups can have restorative mental health benefits for people of all ages.

The UK Government recommends the use of outdoor education, where possible, as this can limit transmission and more easily allow for social distancing.

Please note – Holdfast Beach School operate under a dynamic risk assessing process which is the continuous process of identifying hazards, assessing risk, taking action to eliminate or reduce risk, monitoring and reviewing, in the rapidly changing environment of the natural world.

This risk assessment must be read in conjunction with other related risk assessments & policies/procedures.
